Factory-Direct Shipping &
Professionally Installed

Step Up to a Landice

The Landice **E9 ElliptiMill®** features the ultimate in accessibility. Just grab the handrails, step in, and start exercising with confidence.

The Most Natural Stride

Patented Rollmentum™ center-drive replicates the body's natural motion.

The Most Comfortable Feel

Orthopedic "gel" footpads provide optimal comfort and relieve foot fatigue often linked to elliptical trainers.

Lowest Step Up Height

Integrated rear step provides for lowest step up height of any elliptical trainer.

Adjustable Stride

Stride adjusts between 17 and 23 inches.

The Ultimate in Flexibility

Integrated side frame foot rests with non-skid surface allows for isolated upper body workouts.

5 Year Commercial Warranty

Valid for all commercial applications.

PROMaxima
STRENGTH & CONDITIONING

Landice has over 40 years field experience in the harshest commercial environments.

Designed for the most demanding commercial applications but built to accommodate deconditioned users as well, the E9 ElliptiMill® is the perfect solution for all types of commercial facilities.

Health Clubs and Fitness Centers

Hotels, Condominiums, and Corporate Fitness Centers

Rehabilitation and Wellness Facilities

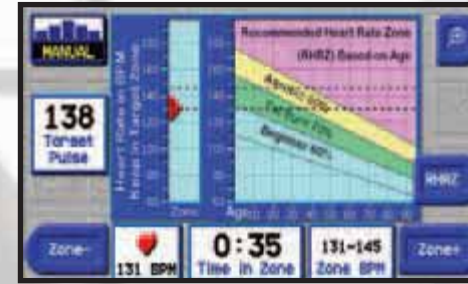

Body Specific Programs

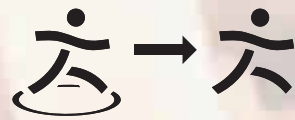

Track With Race Mode

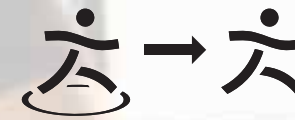

Heart Rate Zone Training

Vertical Situation Indicator

Metabolic Equivalent Running Speed and Distance
An advanced algorithm calculates your equivalent speed and distance based on your effort level and pedal speed. If you can "run" 1 mile at 12 MPH on a treadmill, you know you can do the same on an ElliptiMill.

Race Mode with Automatic Shift Transmission
Race mode allows you to keep pace with another runner whose speed you define. The automatic shift transmission helps you stay on pace. As you increase your pedal speed, the ElliptiMill will automatically up-shift to the next effort level increasing your metabolic equivalent running speed. If you decrease your pedal speed, the ElliptiMill will automatically down-shift to a lower effort level setting decreasing your metabolic equivalent running speed.

- The ElliptiMill Executive Trainer features an 8.5" computer-animated video display with state-of-the-art graphics
- Displays metabolic equivalent speed and distance
- Interactive graphic Race Mode - Pedal to keep up with your personal motivator
- 5 Built-in programs with variable time and 20 effort levels
